

Sagar Mankar

Full-Stack Architect | Security & Mobile App Developer

Diploma Engineering | Polytechnic 2nd Year | BKIT Sakoli | Open to full-stack/security/app internships

GitHub: github.com/Sagamankar123

EDUCATION

Diploma Engineering
Polytechnic 2nd Year
BKIT Sakoli

OPEN TO

Full-Stack Intern | MERN
Intern | Security/App Intern

CORE STRENGTHS

- Logic-first problem solving and DSA fundamentals
- MERN/full-stack development and API thinking
- Cybersecurity basics and security-aware product flows
- Tool selection, debugging, and demo readiness under deadlines

TECHNICAL SKILLS

Programming

Java, C++, C, DSA, basic Assembly

Web / MERN

JavaScript, HTML, CSS, React,
Node.js, Express, MongoDB

Mobile App Development

Android/app workflows, app delivery
basics

Security

Cybersecurity fundamentals, awareness
flows, risk-first thinking

Workflow

GitHub, Firebase basics, debugging,
deployment basics, tooling

PROFILE

Diploma engineering student focused on logic, cybersecurity fundamentals, and full-stack development. Comfortable moving across frontend, backend, MERN-style builds, tooling, debugging, and security-aware product thinking. In team projects, brings structure under pressure by breaking problems down, choosing tools, building logic, and stabilising demos.

SELECTED PROJECT WORK

Cyber Raksha v1/v2

Security awareness platform for everyday users. Contributed security-minded logic and product flows; v1 won Diamond Award and 1st place, v2 expanded app +

Smart Leads Dashboard

Contributed MERN backend and architecture thinking for managing business leads, CRUD operations, lead states, filters, and dashboard flows.

Pashu Raksha / PashuMitra

Integrated an offline chatbot utilizing a local AI model for cattle disease detection. Built entirely during an intense 24-hour hackathon sprint under

MVP Genie

Contributed technical architecture for the parallax landing experience and AI context memory positioning.

JGU University Site

Contributed technical architecture for a modern, tech-driven university UI clone with responsive structure.

Sanghx / Eatlo / Tabey

Supported startup-style food-ordering product builds, launch workflows, operations thinking, and technical iteration across related local delivery

Sankalp Bharat 2026

Team PANDA reached Top 16 nationally among 800+ teams. Contributed logic, technical execution, and pressure-time issue solving.

ACHIEVEMENTS

- Diamond Award, 1st place - GHRSTU INNOVEX-26 Tech Manthan, 12 March 2026
- Top 16 - Sankalp Bharat 2026 national hackathon, 800+ teams
- Built across app, web, PC, MERN, Firebase, and cybersecurity-aware projects

Honest resume note

Current skill snapshot is honest and practical: strong fundamentals, broad project exposure, and active growth through real builds.
