

DIPAK DHURVE

Builder · Still chasing

Lv. 8 · Polytechnic 2nd Year · Diploma Engineering

Polytechnic 2nd year. Newer to this game than Sagar.

Built sanghx.in (food delivery startup, 200+ orders, zero ad spend), helped ship Cyber Raksha v1+v2 (won state-level Diamond Award), built Pashu Raksha — offline AI cattle disease detection — in 24 hours.

Not claiming to be an expert. I just build. Still learning the basics deeper every week.

Sagar's been at this longer. I'm chasing. Like Bluelock — we devour each other to get better.

SKILLS · HONEST LEVELS

Java	Lv.5/10
C++	Lv.5/10
JavaScript	Lv.6/10
HTML / CSS	Lv.7/10
React — <i>learning</i>	Lv.4/10

Real-world projects — <i>from shipping real shit</i>	Lv.3/10
Critical thinking — <i>this is my edge</i>	Lv.10/10
Logical thinking — <i>this is my edge</i>	Lv.10/10

TRAITS

★ Adaptive ★ Hungry ★ Always 100%+

THINGS WE'VE SHIPPED

sanghx.in Food delivery startup

Local food delivery I built and launched solo. 200+ paying orders in 20 days, zero rupees on ads — pure word of mouth. Ran ops on WhatsApp.

Cyber Raksha v1 + v2 Security awareness

v1 won the Diamond Award (state-level inter-polytechnic, GHRSTU INNOVEX-26, March 2026). v2 launched at Gaikwad Patil Technofest as app + PC app + website.

Pashu Raksha Offline AI · 24h build

Animal disease detection for farmers. App + website + offline AI model + offline chatbot. Built in 24 hours for Sankalp Bharat 2026 (national hackathon, top 16 of 800+ teams).

Eatlo.food / Tabey.in Other ventures

Helped a friend launch eatlo.food (his city's food delivery). Started tabey.in (sanghx v2) — paused but live.

ACHIEVEMENTS

1st Diamond Award

GHRSTU INNOVEX-26 · Tech Manthan · State-level inter-polytechnic · 12 March 2026

Top 16 Sankalp Bharat 2026

National hackathon · 800+ teams · industry judges loved the pitch

200+ Real orders, no ads

sanghx.in · 20 days · word of mouth only

24h Pashu Raksha shipped

Offline AI cattle disease detection · built in 24 hours

SAGAR MANKAR

Logic-first · Security-leaning · Senpai

Lv. 20 · Polytechnic 2nd Year · Diploma Engineering

Same college, same year as Dipak. Been in this game longer.

Security and logic are my home turf. Cyber Raksha came from there.

Strong on basics — Java, C++, low-level. Honest about what I'm still figuring out.

Dipak's hungry and catching up fast. We push each other — that's how we both get better.
